

Invitation to Gothenburg Open 2010

Do the same as many badminton players do, finish the season by competing in the increasingly popular badminton tournament – the Gothenburg Open. **The tournament is also today the largest badminton tournament in Sweden and our ambition is to draw more players from other countries to the tournament.**

The Gothenburg Open is held when Gothenburg is starting to be at its best, the time of the year spring gives way to early summer and Gothenburg's out door restaurants and beautiful parks come to life. Add to these, north Europe's coolest and most exciting theme park, Liseberg and it will be a total experience.

The tournament has been arranged so that there is time to visit Liseberg or even an evening spent on Avenyn, the main avenue for restaurants and pleasure.

The tournament has an advantage in that all matches are played in the same arena using 30 courts. Players will meet competition from other nations, for example, skilled Danes. Since the tournament is attracting more and more players, we have to limit each competitor to two categories. So discuss this with your trainers, parents, and club friends and register as soon as possible. Finally, we'll see you at Alelyckans Sportcenter when the lilac is in bloom!
